Interiors & Monuments

Fred Perry Memorial & Debentures Interior - All England Lawn Tennis Club, Wimbledon

In January 2010, we undertook a prestigious project at the All England Lawn Tennis and Croquet Club, the home of tennis. The project was for a total rip out, renewal & refurbishment of the renowned Debentures restaurant and Café Renshaw at No1 Court. In addition, the world famous Fred Perry statue required renovating and re-locating, creating a brand new, permanent monument at Centre Court.

This was a complex project requiring a huge level of expertise. It was imperative that Zone Exhibitions Ltd. understood the clubs' unique working nuances, strict budgets and work schedules. Working seamlessly with the clubs' in-house electricians, AV and data suppliers was key to the success of the project. Our work on this project will serve Court no.1 at Wimbledon for the next 15 years and beyond.

Wimbledon

We are a family run, British based business.

We work on International Exhibitions across the globe.

We bring together innovation, quality craftsmanship and expertise with realistic prices.
